

DEPARTMENT OF THE AIR FORCE
HEADQUARTERS AIR FORCE COMMUNICATIONS AGENCY (AFCA)
SCOTT AIR FORCE BASE ILLINOIS

MEMORANDUM FOR HQ AFCEA/CC
ATTN: COL BRUCE BARTHOLD

24 AUG 2001

FROM: HQ AFCA/WF
203 W Losey St Room 2100
Scott AFB IL 62225-5222

SUBJECT: Non-applicability of Certificate of Networkiness for Parametric Cost
Engineering System (PACES) Version 2000 2.1.5

1. After reviewing the information provided, we concur that PACES version 2000 2.1.5 does not meet the criteria for requiring a certificate of networkiness.
2. SAF/AQ Command, Control, Communications, Computers, and Intelligence Support Plan (C4ISP) policy memo, 13 Jun 00, requires AFCA provide a recommendation as to networkiness of systems that use AF communications and information infrastructure, and further states that a certificate of networkiness is required prior to production and fielding systems that use the AF communications and information infrastructure. Since PACES version 2000 2.1.5 is a stand alone system that is installed from a CD to a local drive and does not connect with the information infrastructure, and does not change network performance, operations, or security, AFCA determines a certificate of networkiness is not required.
3. If you have any questions, please contact June Wilkin, HQ AFCA/WFCI, DSN 779-6259, or e-mail June.Wilkin@scott.af.mil, office e-mail afca.wfci@scott.af.mil.

A handwritten signature in black ink, appearing to read "J. C. Strawn", is positioned above the printed name.

JAMES C. STRAWN, Lt Col, USAF
Director, Warfighter Capabilities
